

FOR INTRODUCING BROKERS

Better gold tools. *More active traders.*

Live XAUUSD data for the bots, alerts and dashboards
that keep your community engaged.

PREPARED FOR [IB NAME] • [DATE] • xauapi.com

Your rebates follow activity. *Activity follows value.*

01

Clients go quiet

After the first deposit, many traders drift away when nothing keeps them engaged.

02

Every group looks alike

Most gold communities share the same screenshots and chatter. Few offer real tools.

03

Tools are hard to build

Live prices usually mean running an MT5 terminal on a VPS and writing your own bridge.

WHAT XAUAPI IS

Live gold data. *One API key away.*

`/v1/quote`

Bid, ask and spread

XAUUSD sampled about every 250ms, labelled with its broker.

`/v1/candles`

M1, M5 and M15

OHLC candles from broker history, ready to chart.

MCP

AI-ready

Connect AI assistants to live gold prices, read-only.

First feed: JustMarkets · MT5

No MT5 terminal or VPS needed

Read-only: cannot place trades

WHAT YOU CAN OFFER

Tools your traders *open every day.*

Telegram price bot

Live bid, ask and spread on request in your group.

Level alerts

"Gold crossed 2,650." Sent the moment it happens.

Session recaps

Automatic Asia, London and New York range posts.

Branded dashboard

A live gold page on your own site, under your brand.

AI gold assistant

Members ask questions; it answers with live data.

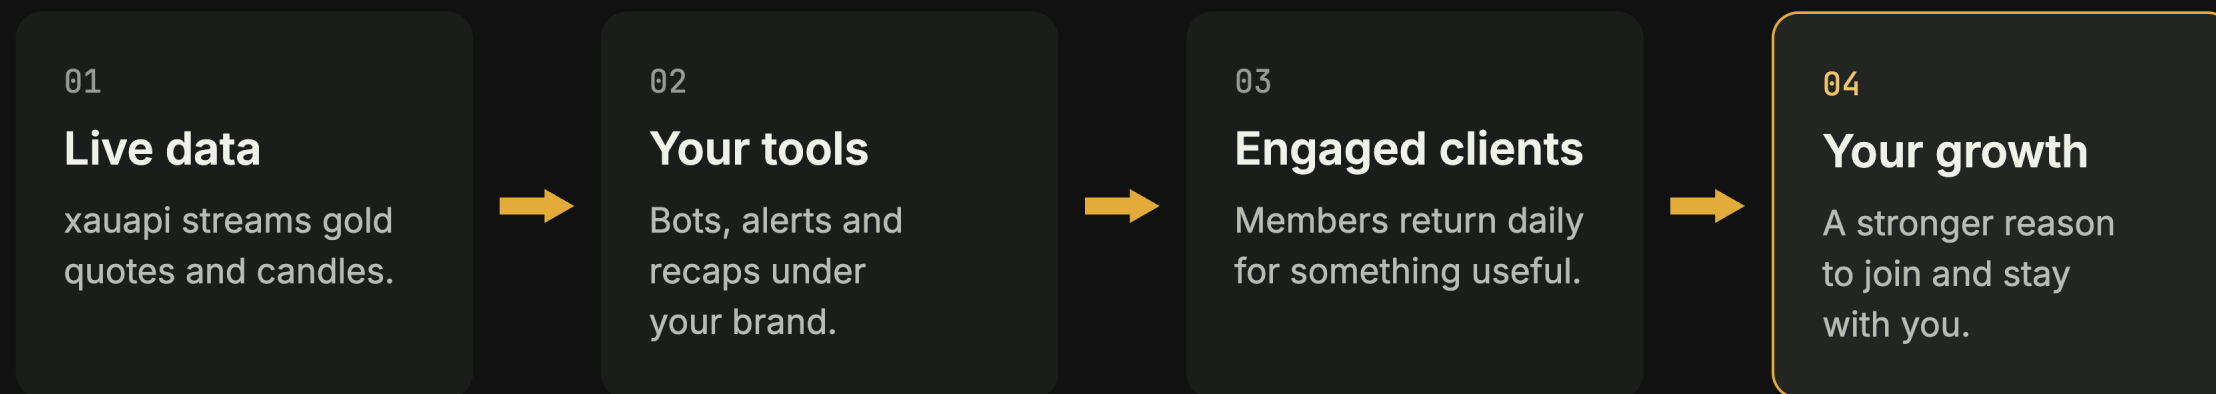

Spread watch

Flag wide spreads before members enter a trade.

HOW IT PAYS OFF

Useful tools keep traders *in your community.*

BUILD IT YOURSELF?

Skip the servers.

Start with the data.

	Do it yourself	With xauapi
Setup	MT5 terminal on a VPS, plus a custom bridge	Create an API key and call it
Upkeep	Restarts, patches and outages are yours	Feed health checked every minute
Data	Your own timestamps and gap handling	Broker label, timestamps, freshness flags
AI tools	Build your own integration	Read-only MCP included

PLANS · 50% LAUNCH PRICING

One bot fits *comfortably in Pro.*

Pro

FOR MOST IBS

\$149 / mo

12M requests a year · 1 API key · 250 requests per minute · \$1,788 billed annually

Max

\$1,490 / mo

240M requests a year · 10 API keys · private direct support · \$17,880 billed annually

A bot checking the price every 5 seconds, all year, uses about **6.3M requests**, about half of Pro.

YOUR BROKER NOT LISTED YET?

Introduce us.

Get your broker's own feed.

You know the brokers

IBs already have partner managers at the brokers they work with. A warm introduction opens the conversation.

Your clients' prices

Once validated, your tools can show the exact broker your clients trade with.

Introducer reward

[Reward for a broker feed that goes live, to agree, e.g. free months of Pro]

GETTING STARTED

From sign-up *to your first alert.*

01 • SIGN UP

Pick a plan

Create a workspace at xauapi.com and subscribe.

02 • KEY

Create an API key

Test live calls in the dashboard explorer.
